SUMMARY

B.S. Software Engineering student at Milwaukee School of Engineering with extensive team-based project experience across academic, personal, and co-curricular settings. Proven time-management skills, successfully combining a rigorous academic schedule with part-time employment. Proficient in Java, C, C++, JavaScript, HTML, and CSS, with experience in data structures, databases, and Agile development.

EDUCATION

B.S. Software Engineering | Milwaukee School of Engineering | Expected May 2027

PROJECT EXPERIENCE

AI Resume Analyzer

- Built a full-stack resume-feedback web app with **React Router v7** and TypeScript, using **Puter.js** as a serverless backend for auth, file storage, and a key-value store
- Converted uploaded resume PDFs to images and sent them to **Claude** for AI-powered, job description-aware analysis
- Engineered a structured prompt returning an **ATS score** plus four scored feedback categories with actionable tips
- Built a dashboard to track past submissions and scores; deployed live on **Vercel** with a Docker build available for containerized hosting

RevEng UML Diagramming Tool

- Developed a **Java/Swing** desktop application that analyzes Java projects with **ANTLR** and visualizes UML class diagrams.
- Implemented class filtering, project loading, and customizable diagram styling.
- Worked in an Agile team with sprints, reviews, and shared architecture decisions.
- Maintained a **GitLab CI pipeline** for builds, tests, and team integration.

macOS-Inspired Portfolio Website

- Built a **React** app simulating a macOS desktop, with a draggable Dock, resizable/animated windows, and a Finder-style project explorer
- Implemented window drag, open/close, and elastic Dock hover animations using **GSAP**, with global UI state managed via Zustand
- Styled a fully responsive UI with **Tailwind CSS** and built the app with Vite for fast development and optimized production builds

TECHNICAL SKILLS

▪ Java ▪ JavaFX ▪ C ▪ C++ ▪ Python ▪ Flask ▪ JavaScript ▪ HTML ▪ CSS ▪ SQLite ▪ JUnit ▪ GitHub/GitLab ▪ Data Structures & Algorithms ▪ Node.js ▪ Agile (Scrum) ▪ CI/CD ▪ React ▪ Tailwind CSS ▪ Vite ▪ Zustand

WORK EXPERIENCE

Team Member, Chick-fil-A | Jul 2022 – Present

- Deliver efficient guest service in front- and back-of-house roles in a high-volume environment
- Mentor new team members on customer engagement, food safety, and shift responsibilities
- Support team leads during peak hours, ensuring smooth operations and consistent quality
